Education

IIMT College of Engineering   **Aug 2020 – June 2024**
Bachelor of Information Technology   *Greater Noida, Uttar Pradesh*

Experience

Final Project   **May 2023 – June 2023**
Frontend Developer Intern   *remote*
- Contributed to a machine learning project, spearheading the development of the frontend using robust tech stacks like ReactJS, Redux, HTML/CSS, Tailwind CSS and Firebase.

E-cell IIT Madras   **Aug 2021 – Feb 2022**
Entrepreneurial Intern   *remote*
- Revitalized our college E-cell with my teammates, mirroring the success model of IIT Madras E-cell, along with 20 other colleges. Clinched the coveted top e-cell designation at the end of the tenure.

Technical Skills

Languages	Javascript(ES6), Python, Java
Tech stacks	ReactJs, Django, Context API, REST, Redux, Tailwind, Bootstrap, NodeJs, ExpressJs, JWT, Firebase, Azure, HTML/CSS
Databases	MongoDB, MySQL
Tools	VSCode, Postman, Git, IntelliJ Idea, Eclipse

Projects

Health Aura | *ReactJs, Tailwind, NodeJS, ExpressJs, MongoDB, JWT* | [Source code](#)   **Live Demo**
- Developed a patient-centric platform enabling seamless online appointment booking and secure access to digital prescriptions.
- Platform is in-built with both patient and doctor panels, ensuring robust authorization through the use of JWT.

SportOn | *ReactJs, CSS, Firebase* | [Source code](#)   [Live Demo](#)
- Crafted a web app tailored for sports enthusiasts, fostering interactive engagement among users.
- Implemented authentication through firebase and elevated the UI using ReactJS, JavaScript, & HTML/CSS.

Video Chat App | *Python, Django, CSS, Tailwind, ZegoCloud* | [Source code](#)   **Live Demo**
- Developed a web app akin to Google Meet & Zoom, delivering seamless video conferencing experience.
- Fashioned the frontend using HTML/CSS, JS while ensuring a powerful & scalable backend with Python & Django.

Unimart | *Python, Django, CSS, Tailwind, Replit* | [Source code](#)   [Live Demo](#)
- Collaborated with my team to construct a web application during a hackathon, providing college students with a platform to buy, rent, sell or exchange used products.
- Created the frontend with HTML, Tailwind CSS, backed by robust Python and Django-powered backend.

Leadership / Extracurricular

Google Developer Student Club Leader   [GDSC IIMT](#)
- Selected as a Google developer student club lead for my college campus for the session of 2023-24.
- First one in the history of college who established GDSC in a college campus. Conducted 5+ events till now in different tech domains under GDSC India program.

Microsoft Learn Student Ambassador   [MLSA](#)
- Selected as a Microsoft learn student ambassador in 2023 for the first time on my college campus.
- Conducted 2 events on Git & GitHub and web hosting under this program.

Achievements

- Running a technical community on my campus with 800+ members.
- Attended 9 hackathons till 2023 and ranked in the top 10 teams in 4 of them.

Certification

- **Full-stack Development with Python/Django**   **Netcore Info Business Group | Noida**
